ENGLISH AND CHINESE DICTIONARY
WITH THE
MUNTI AND TUNTI AND ARIN
PRONUNCIATION.
AN ANGO-CHINESE DICTIONARY, published
at the "Daily Press Office, Hongkong.

I FOR comprehensive and practical service
this work stands unrivalled. All the new
words which the Chinese have of late years been
compelled to coin to express the numerous sub-
jects in machinery, photography, telegraphy, and
in science generally, which the rapid advance
of foreign relations has imposed upon them, are
here given in *extenso*. Each and every word is
fully illustrated and explained, forming ex-
cellent aids to students of the Chinese language.
Both the Court and Tunti pronunciations are
given, the accents being carefully marked or
the best principle literally attained. The typog-
raphy displays the accuracy of an attempt to
make the Chinese and English characters correspond
in the way of body, thereby effecting a vast
economy of space, achieving a clearness not
previously attained, and dispensing with those
vain markings and various spaces which have
hitherto characterized Chinese publications.

To illustrate the vast scope of the work, the
following lists are submitted for consideration.
Chalices, 16,000; candles, 16,000; candles, 16,000;
Chinese characters, 16,000; candles, 16,000;
Chinese Dictionary about 200,000, whilst
this work contains more than 50,000 English
words, and upwards of 600,000 Chinese charac-

other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and combinations of different words which have no general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitherto published.

For practical purposes the arrangement of the work is so complete, that a referent to its pages enables a person who understands a little of the Chinese to converse with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Bachelors, residing in China, and to the persons themselves who explain subjects fully with which very few indeed of them are perfectly acquainted. To the Chinese, it is equally useful, as it enables them to converse in English with those of China it cannot but be valuable occasionally.

It comprises upwards of two thousand large quarto pages.
